### Student Story: **Matthew Duan from China**

Matthew transferred to Auckland Grammar from The High School Affiliated to Renmin University (RDFZ) to complete his secondary education in New Zealand. This transition was relatively easy and he quickly adapted to the New Zealand class content.

He chose to stay with a local homestay family instead of living with his aunt. Matthew has also contributed to Auckland Grammar by becoming the editor of the International Student newsletter. Outside of the classroom, Matthew is a keen swimmer and has participated in the national school championships during school holidays.
